HOW TO USE THIS CATALOG

Illustrated Parts Guide is arranged alphanumerically by product type and then by part number. For reference OE numbers and vehicle usage are listed directly below each image along with any fitment notes. Each part is also listed alphanumerically in the numerical index at the end of this catalog.

Specification tables are listed alphanumerically by Carquest part number and gives important information such as connector gender, number of terminals and terminal type for each part listed.

OE and Competitor Interchanges are alphanumeric listings of OE and competitor part numbers to corresponding Carquest part number.

Component to Connector Interchange is listed alphanumerically by component manufacturer and then by component number to the mating Carquest connector number.
